

REAL LEADS. REAL VALUE.

LeadValu offers state-of-the-art lead retrieval options for exhibitors. Use your own iPad or iPhone to collect leads anywhere – not just on the trade show floor.

- Scan badges directly with the camera in your iPhone or iPad. Don't have an iPad? No problem - contact LeadValu for the rental options.
- You can use an iPad 3 or later, any iPad Mini, an iPhone 4 or later, or the new 5th generation iPod Touch 32GB or greater (with rear-facing camera).
- Use the standard qualifiers for your event, or create a list of up to 15 custom qualifiers.
- Capture any length of notes to improve post-show follow-up from your sales team.
- Create your own survey. Surveys can be of any length and can have pick-one (radio button), pick-many (check-box) or text response questions. Surveys can include hidden questions as well as branching that can be used to create multiple survey options for companies with a large number of products or services. Contact LeadValu directly to discuss a custom survey and other capabilities.
- Have digital literature you need to get to your prospects? With a custom survey you can add eLiterature distribution to your system. Up to 5 separate documents can be configured for one low fee. The email is customized with your brand and messaging.
- LeadValu is all about access. No need to wait until the show is over, or stand in line to get your leads. Download your leads whenever and wherever you want from LeadValu's web portal.
